Venice School Tax Hike OK'd 213-158

Moderate Turnout by Voters to Approve 40-Cent Increase

The 40-cent educational fund tax rate increase for the Venice school district was approved Saturday by a vote of 213-to-158 in a special referendum.

The turnout of voters, while moderate, was termed representative by school officials, who said they had anticipated even a lighter vote because of the showers and downpours of rain that continued throughout the afternoon.

The lone polling place in the school gymnasium was open from noon to 7 p.m.

Results of the election were known by 7:30 p.m. The total vote was 369, and there were 19 spoiled ballots. The vote is expected to be canvassed at a meeting of the school board to-night.

With the 40-cent increase, the Venice educational rate maximum will jump from \$1.65 to \$2.05 per \$100 assessed valuation.

It is anticipated the new rate will be certified at the county clerk's office for collection of taxes next spring. The added rate has been figured to cost the average property owner about \$16 a year.

Of the 40 cents, 17 cents is to be used for the educational program, 15 cents for the library and 8 cents for the fire department for pay increases in 1971-72 and one cent for supplies and equipment.

Request Amendment of Township Police Bill

A request for an amendment of the new Illinois law authorizing townships to contract for police protection will be made by Godfrey township officials because the new legislation fails to provide a way to pay for the service and because, in some instances, townships are limited to making such contracts only with the county, according to Dale Kennedy, supervisor of Godfrey township.

State Rep. Sam Vadalabene (D-Edwardsville, who sponsored the bill, said he would seek an amendment in the regular session of the legislature in April if a request is made by township officials.

The new law permits townships to enter into contracts with police units of municipalities, or the county, to provide police service for areas of the township that do not lie within a municipality. Kennedy pointed out that Godfrey township is the only township in the county that does not have a city within its boundaries. It therefore would be limited to contracting with the county.

He said lack of police protection is one of Godfrey township's most serious problems and it had been planned to set up "our own police department" before Governor Ogilvie vetoed bills that would have permitted such action under a levy of 10 cents per \$100 assessed valuation.

Paul Nickel, 17, of 2622 Missouri avenue, told police he was driving south when he was struck onto the highway headed toward the river.

After striking the deer, Nickel's auto veered across the pavement to strike a "junkie" auto parked near the shoulder. Police notified the county conservation office of the deer kill, and the dead animal was taken away.

Car Hit by Bottle
George Lynn, 131 Grenzer Homes, Madison, reported to police at 10:20 p.m. yesterday that vandals threw a liquor bottle against the top of his 1965 model auto. He said the bottle was thrown from an auto southbound on Ewing avenue.

Madison authorities said George McNeill, 1431 Second street, driver of the car, told police he was driving north on Third street near Ewing when the boy ran out from between parked cars. McNeill said he applied his brakes but did not have time to avoid hitting the youngster, who was hit by the left side of the car.

Two Pumps Operating
"I know that they (at the real estate development) were using two six-inch pumps to drain water into Dobry Slough," the mayor said.

The mayor said he did not know the exact nature of the work at Wolf's development but that he understood that under-sound excavations for sewer installations had been made, and the high water table may have created the problem.

GC Police Halt Pumping 'Into' Dobrey Slough

Efforts by a Granite City estate developer to "dry water" an apartment construction area by pumping drainage into Dobry Slough were halted by police about midnight Saturday in response to complaints that the slough level was rising despite other pumping operations by area residents who were trying at the same time to drain the slough.

Acting on instructions by Mayor Donald Partney, police went to the Pontoon Plaza area where apartment construction is under way by Leo Wolf, and took an engineer and a laborer to police headquarters. Partney said today that "we intended to look them, but after discussions with Wolf, the men were released with the understanding the pumping operations will be discontinued at 12:50 a.m. today."

The mayor said he did not know the exact nature of the work at Wolf's development but that he understood that under-sound excavations for sewer installations had been made, and the high water table may have created the problem.

"I know that they (at the real estate development) were using two six-inch pumps to drain water into Dobry Slough," the mayor said.

GC Assessor Increases Valuation For 1969

Set at Local Values, New \$174,499,890, Up \$3,293,400

New personal property and real estate assessments totaling \$174,499,890 have been extended in Granite City township for the 1969 tax year. Township Assessor James Barton announced today.

The new locally-fixed valuations, which are subject to review and possible change by the Madison County Board of Review, are increased \$3,293,400 over Barton's total local assessment of the 1968 year, and \$2,423,255 higher than last year's final valuation figure of \$172,076,635 as determined by the review board.

New personal property assessments and real estate valuations are published in today's edition of the Press-Record on pages 22 to 31. Real estate values are listed only in instances where new assessments are made, or where corrections or additions are necessary in prior values. Full assessment of real estate property is made only on a quadrennial basis.

Personal Values Up
Of the new total valuation of \$174,499,890 fixed by the township assessor, \$77,578,189 represents personal property valuations. Last year Barton assessed personal property at \$75,922,670 and the Board of Review raised this figure to \$78,929,915. Thus Barton's local assessment of personal property for 1969 is \$78,265 above last year's review board value.

The 1969 assessments list notes a total of 11,434 passenger autos assessed at \$5,828,200, compared to 11,519 cars assessed at \$5,700,850 last year on the basis of review board figures. The local assessor lists 11,042 trucks, buses and trailers, an increase from 10,987 last year. There are assessed at \$725,100 locally, for 1969, compared to a Board of Review value of \$623,200 in 1968.

Personal property assessments on household furnishings remained virtually unchanged. The new assessment on furnishings is \$3,667,650 compared to last year's review board value of \$3,662,110.

The new state law calling for elimination of assessments on household furnishings and one car in each family will not apply until next year's assessments are made. Most assessments had been completed this year by the assessor.

SIU Board Increases Out-of-State Tuition

An increase in out-of-state tuition for full-time students at the University of Illinois at Urbana-Champaign, effective in fall quarter, 1970, was approved Friday by the Southern Illinois University board of trustees at Carbondale. The action implements recommendations of the Illinois Board of Higher Education.

Tuition for full-time non-residents will be increased by \$34 per quarter, from \$206 to \$240. Those students taking less than five quarter hours of studies will pay \$80 and those taking from six to ten hours will pay \$180. The state board has recommended a policy whereby out-of-state tuition will be increased by \$100 per year until next year's assessments are made. Most assessments had been completed this year by the assessor.

The SIU board made no change in tuition for Illinois residents, now \$67 per quarter for full-time students.

In other business the trustees approved adding Washington's Birthday to the 1971 academic calendar as a university holiday. Starting in 1971 the anniversary will be observed nationally on a Monday holiday. The action implements recommendations of the Illinois Board of Higher Education.

The University trustees approved a request that the administration be authorized to waive book rental and activity fees when the courses involved are conducted in locations remote from the regular instructional centers that the students could receive a substantial benefit from the programs supported by those fees.

W. Madison Man Gets Life in Murder Case

Calvin Dixon, 23, of West Madison and formerly of Venice, was sentenced to life imprisonment Friday after he was found guilty in the killing of St. Louis restaurateur owner. Dixon was convicted in the St. Louis circuit court of Judge Alvin J. McFarland by a jury of eight women and four men.

One of two character witnesses who testified during the trial was Chief of Police John Essington of Venice who was subpoenaed by the defense attorney.

The prosecution waived the death penalty. Life imprisonment is the only other sentence that can be levied for first degree murder in Missouri.

Dixon was charged in the Jan. 17 robbery and murder at the New Delmonico restaurant in St. Louis when Claude Wilson, 59, owner of the place, was shot to death when he tried to stop four holdup men.

A second man in the case was acquitted Oct. 1, another is awaiting trial and a fourth man has not been apprehended.

1-2 Year Sentence In Prison for Holdup

John Steven Long, 19, of Granite City, was sentenced a term of one to two years in Menard penitentiary last week in Madison county circuit court on a charge of armed robbery. He had changed his plea from innocent to guilty. Long, who was given credit for eight months served in the Madison county jail, was charged with two companions in the holdup of Jerry Webb, an attendant at Clark's service station, last March 4. The other two are George Warren Whitehead, 27, and John Robert Falicetti, 19, both of Granite City.

Probation of three years was won by Ronald Davis, 17, of Rural Route Two, who was arrested in August in connection with an auto theft and burglary ring. He was ordered to make restitution of any losses by the victims that may be pending.

Raymond English of Granite City was granted two years probation after he pleaded guilty to a reduced charge of battery. He was indicted on a charge of aggravated battery. The court ordered him to observe an 11 o'clock curfew.

Concurrent sentences of two to six years in prison were ordered for Robert Bridges of East Alton, one of five men who escaped from the Madison county jail last summer and were captured a few days later in Toledo, O. He was charged with escape, two counts of armed robbery and aggravated battery. He pleaded guilty and waived rights to a probation hearing.

Parents, Servicemen Like Yule Mail Call

In a note to the Press-Record this week, the mother of a local man stationed with the U.S. Army at a remote test center in Alaska, expressed appreciation for the "Yule Mail Call" project and submitted the address of her son for the second year.

Also in today's "Yule Mail Call" list are six servicemen on duty in Vietnam, including a Marine Pfc serving with a Combined Action Group. A specialized patrol unit, C.A.G. squads usually are composed of South Vietnamese and American troops who accompany teams of medics or experts in related fields into isolated regions.

In contributing her son's name and address to the newspaper's fourth annual pre-Christmas service, Mrs. Robert Cain, 2533 Hemlock avenue, writes—"I always look forward to the 'Yule Mail Call.' It is helpful to all. My son enjoyed it so much last year.

"This year he is much farther away from home. He is over 100 miles north of Fairbanks, Alaska. He is on a test mission and will be there for six months with no leave.

"Gene is at Fort Greely, Alaska, where it gets down to 60 degrees below zero. I thank you so much for this service.

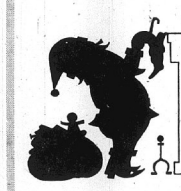

Mrs. Cain is the mother of Specialist Four Gene R. Cain, whose address appears in today's list.

Relatives and friends of the Quad-City servicemen and women are invited to submit their names and addresses to "Yule Mail Call" for publication in subsequent issues.

To ensure accuracy, those contributing addresses are asked to include the serviceman's full name, rank, serial number and APO or FPO when applicable. The area of service will be listed in parenthesis following the address when noted. The information should be written on a postal card or slip

of paper and mailed or brought out the lists as they appear, to the Press-Record office, 1817 adding the servicemen to their regular Christmas mailing. Readers are urged to clip lists.

Venice to Press For Full Repair Of RR Crossings

A proposal to file complaints with the Illinois Commerce Commission against railroads that fail to properly repair grade crossings within a reasonable time was approved by the Venice City council during regular meeting Friday night.

The plan was suggested by Mayor John E. Lee and City Atty. Harry Hartman after it was brought to the council's attention that the Market street crossing of the Terminal Railroad Association tracks has been repaired several times in recent months, but not to the extent that the repairs hold up under steady traffic.

The council instructed City Clerk William "Mike" Ebersold to notify the Terminal Railroad Association that unless substantial repairs are made to the crossing before the next council session Nov. 7, a complaint will be filed with the ICC.

To Check Houses

Council members referred to its building and health inspectors for investigation and report the addresses of four residential properties which were said to be in substandard condition and unfit for occupancy.

Mayor Lee told the council that two of the locations were brought to his attention by the Public Aid agency and the other two locations were submitted by council members.

The properties are located in the 400 block of Weaver street, the 1100 block of Bissell street, the 1000 block of Douglas street and the 1000 block of Calhoun street.

Expense allowances of \$150 each were approved for Venice Police Patrolmen John Kietel and Algie Crawford who will attend the annual convention of the Illinois Police Benevolent Association in Springfield Nov. 2, 3 and 4.

To Attend Institute

Also approved was total expense allowance of \$300 for Hartman and Ebersold to attend a local government law institute to be held by the Loyola Institute of law in Chicago Oct. 30 and 31.

A request by the Granite City police department to use the Venice police firing range in the basement of the city garage on Oct. 28 and 29 was approved, subject to agreement by Granite City to waive liability by Venice.

City Treasurer Bernard Anderson reported the city received a final settlement of \$28,855 in 1968 taxes collected locally during the summer by Venice's Township Collector Frank Reidelberger Jr., and said the city had a cash balance of \$284,686 at the end of September.

Reports Operating Costs Anderson reported that the tax receipts, with a balance of \$27,715 on hand at the beginning of last month brought total available funds to \$321,622, from which \$38,525 in September operating expenses were paid.

Expenditures during September included \$11,483 for the police department, \$8303 for the street department, \$3369 for city officials salaries, \$3362 for garbage collection and \$3074 for the fire department.

Warm Weather Reduces Ice Skating Sessions

Warm temperatures the past week resulted in poor quality ice at the Wilson Park ice rink where only three sessions were held during the weekend, instead of 11 separate skating periods as scheduled earlier. A reduced number of sessions also is announced for this week.

Bill Hodge, rink manager, said that the weather was too warm and the ice not quite ready to permit opening the rink for regular skating at 4 p.m. last Friday as announced. Single evening sessions were held on Friday, Saturday and Sunday, he reported.

Despite cancellation of eight skating periods, a total of 1314 ice skaters paid admission to the Wilson Park facility over the weekend, Hodge said.

A temporary schedule announced for tomorrow and Wednesday includes skating periods from 7 to 8:30 p.m. on both days, and a Housewives House from 9 to 11 a.m. Wednesday. Skating schedules for the remainder of the week will be determined by Thursday, Hodge said. The local rink will not operate on Mondays this season.

Warriors Trample Flyers 21-6 for 4th SW Win

Granite City piled up short yardage ground gains, spiced with several passes, then frustrated an East St. Louis attack to retain the Warriors' undefeated conference record (4-0) with a 21-6 win over the favored Flyers Friday evening at GCHS field.

Both teams played solid football with agile ball control, but Granite City consistently mustered as a unit in critical situations.

All four of Granite's pass connections in all 11 tries were for first downs which gave the Warriors a 12-8 first down margin. The Flyers completed no passes with 8 attempts. Each team was credited with one interception.

Passing also was critical in comparing the net gain statistics. Granite City ground out 149 yards and threw for 82 yards. The Flyers, excluding a break-away 75-yard touchdown scamper, ran 132 yards.

The opening kickoff went to the Flyers, who with a clipping penalty, started play from their own 13. Unable to move but a few yards, they punted to the East St. Louis 36.

On Granite's first play, Dave Meizer took a pass from Dave Evans to be stopped 12 yards from the end zone. Stan Corey advanced several yards, Evans kept the ball for a few more yards then Corey powered to within two feet of the goal and a first down. Evans sneaked the ball for a TD. Joe Wallace kicked the conversion.

The Flyers on nine plays and two first downs marched, on carries by Fontez Dale and Rod Fisher, from their 10 to first down and goal-to-go. Four runs were thwarted and the Warriors took over the ball on their own 2 yard marker.

As the first quarter ended, the Warriors moved to their own 14 and a first down. A five yard penalty against Granite and two no-gain runs followed. Then, Evans rifled a pass to left Meizer, who sped to the GC 42. Corey rushed six yards but, the drive ended.

After the punt, Dale, on the Flyers first play, broke loose for a 75-yard touchdown. The running conversion was short. Next with the ball the Warriors passed incomplete then had a pass intercepted. East St. Louis punted after a series of plays.

From the GC 26 Corey carried six consecutive times, gaining yardage with every carry to the GC 45. Evans sneaked a one yard first down but, two more runs and an incomplete pass forced the Warriors to punt to the Flyers' 9 with 35 seconds to go before the end of the half. The Flyers went nowhere.

After halftime, Granite City received and punted on fourth down. A long march for East St. Louis began on the Flyers' own 29. Six first downs and 16 plays moved to the GC 71 but there, Dave Meizer intercepted a pass in the end zone. The no-score touchdown put the ball on the GC 20.

A sustained Warrior march was beginning as the third quarter finished. The march consumed over 8½ minutes with Steve Ganz as the major ball carrier. Ganz dived the final yard for a security touchdown. Wallace booted the conversion.

A clipping penalty during the kickoff return forced the Flyers to begin from their own 20. The Flyers handed over the ball after four plays on their own 25. Evans ran three quarterback keepers to the four yard line and sneaked the ball over for the final touchdown.

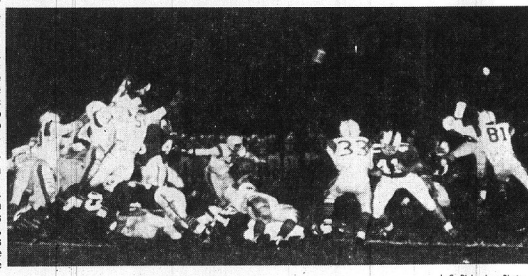

Wallace kicked the extra point with 10 seconds remaining in the game. East St. Louis had the ball in their own territory as the gun sounded.

FIRST DOWN. Steve Ganz (41, center) takes his turn rushing short yardage for the Warriors. In the background stand the other work-horse Warrior rushers quarterback Dave Evans (14, left) and fullback Stan Corey (34, right) Warriors blockers pictured are Dan Nemeth (76) and Mike Jones (63).

FIRST TOUCHDOWN. Warrior quarterback Evans sneaks the ball one yard into the end zone.

AND ONE MORE POINT. Warrior Joe Wallace kicks one of his three point-after-touchdown conversions over the "Two Jima" efforts of the linemen.

Fencing Club to Be Started at SIU-SW

Students at SIU-SW who have emulated in their dreams the swashbuckling scenes in Errol Flynn or Count of Monte Cristo movies will get their chance this week.

A fencing club is being started. Instruction will be given free of charge on Wednesday and Thursday from 7 to 10 p.m. in the Lovejoy Library basement.

The young swashbucklers will study under the steady hand of Professor Robert Schopp, faculty member assigned to the new School of Dental Medicine at the Alton center. Prof. Schopp has been fencing for 20 years and is a veteran of international competition.

He is well-versed in all fencing weapons — epee, foil and sabre. He is a member of the National Fencing Coaches Association of America and the Amateur Fencers League. The SIU-SW professor said he became a patron of the fencing arts because it teaches a man "to stand or fall on his own merits. It requires split-second decisions, and there is no one to tell you what to do at the critical moment," he said.

Confidence in Mets Earns a Free Ride

How sweet it is! One of the more confident New York Mets baseball fans here, Hollis Donaldson, 1603 Maple street, got a free wheelbarrow ride this afternoon, thanks to his confidence that the Mets would win the World Series.

He was to be transported from 20th street and Washington avenue two blocks along 20th street to Madison avenue and then back to the beginning point. Loser of the bet was Norman Graham of East 24th street.

Gators Win, Other Junior High Elevens Defeated Thursday

The Coolidge Braves lost their first football game in 18 outings at undefeated Roxana, 22-6. Grigsby won at North of Collinsville 20-0 and Prather lost at West of Alton 28-0 Thursday.

Roxana took the lead before halftime with a 40-yard off-tackle touchdown run, converting two more points on a run. In the second half, Roxana ran touchdowns on goal-to-go plays. The TD situations were set up by a 5-yard pass completed after a Braves defender had tipped the ball into the air and by a fumble on the snap from center.

Jon Stagner carried 45 yards around left end for Coolidge's only touchdown.

Grigsby Coach Ron Yates commended his entire defensive unit and noted the rushing of Dave Macios.

The first Gator touchdown was set up by a 30-yard pass from Clay Winfield to Tim Spiker. Gary Lively plunged the final five yards.

Later, the Gators marched downfield with solid ball control. Quarterback Winfield culminated the drive with a one-yard sneak for the TD. Winfield passed to Denny DeRuntz to convert two points.

In the last quarter, Winfield threw a short pass to Denny Woods, who scampered 50 yards to put Grigsby close to the goal. A four-yard sneak by Winfield made the final score.

Against Prather, West of Alton tallied 35 seconds before halftime, the first two times it possessed the ball after half-time and again during the last quarter.

Prather mounted no long drives.

Trojans Score 35-0 Win Over St. Pius

The Trojans outclassed St. Pius 35-0 at the Festus, Mo., gridiron Friday night.

Even with Trojan coach Al Vonder Haar's free substitution after halftime, the game statistics agree with the score and Madison's undefeated 4-0 record (4-0-2).

Madison's defense allowed a net gain of only 63 yards, lowering its already "best in the area" average per game to 92 yards.

Dwayne Shaw added 189 yards on 18 carries to extend his "best in the area" individual rushing total to 907 yards.

For the 351 yard rushing total, other Trojans carried: Harold James nine times for 70 yards, Willie Ackers four for 33, Ed Chandler 5 for 42, Barry Boyd 3 for 15 and Phillip Davis 2 for 2.

James and alternating quarterbacks Austin Lewis and Doug Smith for Madison, attempted 11 passes, connecting on five for 61 yards while St. Pius threw 12 times, completing three for 35 yards.

St. Pius made only three first downs, lost three on six fumbles, averaged 25.1 yards for six punts and committed six illegal actions to be punished 55 yards.

The Trojans took 14 first downs, lost two of six fumbles, and punted twice averaging 33 yards.

Madison was best in all statistical departments except penalties. Nine penalties for 90 yards is an improvement for the Trojans, who were penalized 155 yards a week earlier against Mater Dei.

Coach Vonder Haar discussed the big Trojan weakness, "We were offside four or five times."

That's still high but, it's coming down.

"I'm getting gun shy. Every time we gain good yardage, I feel like turning around and looking for the flag. When we're winning it doesn't hurt so much, but in a tight ballgame it could be painful."

"If we do the same against Roxana (Midwestern Conference title contender), they'll kill us." The scoring began when Ackers picked up a fumble and dashed 25 yards for the touchdown. Still during the opening

quarter, James passed 25 yards to Ackers for a second TD. The point after kick failed both times.

In the second quarter, Shaw ran five yards into the end zone and Smith passed to John Ervin for two more points.

Shaw dove one yard for a third quarter TD. The Smith to Ervin pass worked again for two points.

Near the game's finish, Lewis threw 5 yards to Davis in the end zone. James kicked the final point.

\$4000 Fire Damage At Showboat Tavern Bldg.

Fire believed to have been started by faulty wiring around a fuse box caused damage estimated at \$4000 at the old Showboat Tavern building, 316 Main street, Venice, Friday afternoon.

Venice firemen who received the alarm at 1 p.m. estimated \$1000 damage to the interior of the building and about \$3000 to contents. The tavern has not been operating, but furnishings remained in the building.

A basement apartment occupied by W. F. Hoffman, owner of the building, was damaged by water. Firemen were at the scene more than two hours.

Driver is Charged

A charge of careless driving was placed against a 1961 Marcella, 3240 Willow avenue, early Sunday after his northbound auto struck a parked car belonging to Richard Starr of Fairmont in the 2600 block of Madison avenue.

Accident on Lot

Involved in an accident on the Bellemore Village shopping center lot Friday afternoon were autos driven by Elizabeth Brunson, 2020 Lindell Blvd., and Ada Kelly, 2819 Sunset drive.

'Good Neighbor' Group Selects Name for Unit

"Emergency Volunteers of St. Elizabeth" is the name selected by a group of Nameoki area residents who recently initiated plans to start a "good neighbor" organization to furnish aid to individuals and families in need of assistance.

Meeting in St. Elizabeth school cafeteria Thursday evening, a group of 20 persons selected the name and elected Jerome Distler, 2131 Orville avenue, as first president. Distler, one of the principal organizers of the new volunteer group, has been serving as its temporary chairman.

Principal objectives are to conceive, plan and implement a program of assistance to families residing in the area who may need help in the event of a fire or a similar disaster. Members hope to recruit additional volunteers who will offer aid to all families living within the St. Elizabeth parish area, regardless of religious affiliations.

Training courses in first aid and medical self-help are planned with the cooperation of the Granite City civil defense unit. It is hoped to organize similar

groups in other sections of the community, a spokesman said. Also discussed Thursday was participation in a community blood program, whereby blood replacement would be made available to families requiring this type of service, and compilation of available space for storage or accommodation following a disaster.

Appointed chairman of various committees were: Mrs. Peggy Koepfer and Mrs. Marlin Chost, cooking and baby-sitting; James Loden and Mrs. Linda Rozycki, space availability; T. A. Peeler, transportation; Loden, physical labor and maintenance; and Rev. Lawrence J. Mattingly and Distler, blood program.

The committee heads will contact other volunteers and recruit personnel to assist with various assignments, Distler said. Information pertaining to the location of vehicles, quantities of clothing and other items which may be needed in an emergency also will be sought from area residents willing to take part in the program, he explained.

Driver Hits 3 Parked Cars Early Saturday

A motorist who hit three cars parked at 20th street and Madison avenue about 4:45 a.m. Saturday was charged with careless driving. The driver was identified by police as Phyllis Gibson, 21, of 1230 Edwardsville road.

The parked cars belonged to Jesse Chase, 2035 Madison avenue; William Adams of French Creek West Va., and Gene McClanx, whose address was not listed.

Sleepy Motorist Stalls Traffic

Eastbound traffic was tied up a little longer than usual at the Broadway rail crossing in Venice about 3:30 p.m. Friday when a motorist close to the head of the line of traffic fell asleep while waiting for a train.

Drivers behind him honked their horns to no avail, and then one motorist alighted from his car and walked to the sleeper's auto and awakened him.

Miles to Comply With U. S. Order On Cyclamates

Miles Laboratories stated that it will fully comply with the request of the government that cyclamates be restricted to products for special purposes, it was announced at the local Union Division plant.

Miles learned through news sources that new animal data is now available which apparently is inconsistent with prior knowledge of the safety of cyclamates. However, Miles has not received a copy of such data and cannot comment directly upon it.

Cyclamate is used in a few Miles' products as a sweetening agent, but in such minimal amounts that there can be absolutely no danger or threat of danger to health. However, the sweetening agents in these products can be readily reformulated to eliminate cyclamates, and this will be done immediately.

Miles is also a manufacturer and supplier of cyclamates, but it was noted that cyclamates are a very minor part of the corporation's sales volume and profitability.

Arrested in Madison

Two St. Louis youths in a car stopped by Madison police because of squealing tires were arrested at 8:25 a.m. yesterday and released on cash bonds pending a magistrate hearing. Police said they charged Roger Paul Berry, 29, driver of the car, with careless driving and transportation of alcoholic liquor, and charged Douglas Conrad Bower, 20, the passenger, with illegal possession of alcoholic liquor.

Smoke Alarm

Granite City firemen were summoned to the Tri-City Auto Sales building, 1800 Cleveland Blvd., about midnight Saturday on a smoke alarm. It was discovered a fire had been built in a stove without a pipe vent, filling the building with smoke. Earlier Saturday, a truck belonging to William Sebold caught fire in the engine at the main fire station, and there was \$150 damage.

Hubcaps Stolen

Homer Lupardis, 203 Kirkpatrick Homes, reported Friday afternoon that three wire hubcaps were stolen off his 1964 auto.

Rose Cuttings Offered; No Goldfish This Year

Bundles of rose and plant cuttings will be given away without charge to residents of the Granite City park district at 9 a.m. Friday in Wilson Park, it was announced this week by Park Supr. Harold Brown.

The park official noted that distribution of clippings will start promptly at 9 a.m., with no bundles given out prior to that time. Howard McCann, chief gardener, will supervise the project, which is to take place near the 27th street and Delmar avenue entrance to Wilson Park.

A traditional event, not scheduled this year, is the annual give-away of goldfish from the park ponds. Brown explained that so many of the fish have been removed from the decorative pools by youngsters that an insufficient number is left to distribute free to local children as in previous years.

The goldfish that remain will be offered to grade school

teachers for use in the classroom, the superintendent said. The ponds are cleared of fish each fall and restocked in the spring, eliminating the need for the fish during the winter months.

Traffic Charges

Against 4 Motorists

Four motorists were issued traffic tickets Friday afternoon by Granite City police on various charges.

Donald Skaggs, 2403 Dewey avenue, was ticketed at 1800 Edison avenue on a charge of careless driving; Anthony Evanoff, 1618 Seventh street, at 2600 Madison avenue, on a charge of making excessive noise with exhaust pipes; Clarence Burdette of Cahokia at 20th street and Madison avenue for failure to yield right-of-way, and Seldon Stacey, 2159 Monroe street, at Victory drive and Nameoki road on a charge of disobeying a traffic sign.

County Museum Friends Recall Its Preservation

Dr. John C. Abbott, director of the Lovejoy Library of S.W., explained to the friends of the Madison County Historical Museum at their meeting Thursday the steps that were taken in the preservation of the museum.

Dr. Abbott was a member of a small group which developed the idea of saving the Weir home in Edwardsville, which came into the possession of the Madison County Historical Society to be the home of the museum, then housed in one room of the Madison county courthouse. He also helped with the details of the purchase in 1962.

The house, which was built in 1837 in the architecture of the Federal Period, had been in the possession of the Weir family since its construction.

The County Board of Supervisors found that the purchase was feasible and the whole project was carried through as a part of the local activities of the Illinois sesquicentennial year.

Besides the historical material already in the old museum, many additional contributions were made. Much information was acquired from the papers and records of the late Herbert C. Crocker, former city editor of the Edwardsville Intelligencer.

Chorus Girls Spark GC Optimist Meeting

Mini-skirted chorus girls provided a change of pace in programming at the Granite City Optimist Club's weekly luncheon meeting Thursday at the Rose Bowl restaurant.

The high-kicking line was applauded by the local businessmen, many of whom were induced to purchase tickets for the St. Elizabeth Hospital Auxiliary's benefit revival, "Fractured Folies," in which the local girls will be appearing this Friday and Saturday evening at the Granite City high school auditorium.

Ten members of the revue's chorus line performed dance routines and the benefit show's producer-director, Edward J. Hamilton of New York City, described briefly to club members how such entertainment is produced by using local talent and professional direction, costuming and lighting equipment. Hamilton noted, "I got my start in show business at the age of 12 while active in the Boy Scouts." He reported that his hometown Boy Scout troop in Erie, Pa., needed the services of an Indian dancer and he volunteered, thereby bringing his initial step into the field of entertainment.

Hamilton went on to the Catholic University of America in Washington, D. C., where he majored in drama and later returned to Erie to direct the

Erie Playhouse and a student theatre group. He also supervised live talent shows on Wase-TV in Erie.

His direction credits include such musicals as "Pajama Game," "Kiss Me Kate" and "Music Man." Having an outstanding professional career in stock and repertoire theatre, he has also portrayed Truino in "Taming of the Shrew," Willie Loman in "Death of a Salesman" and Nicely Nicely Jones in "Guys and Dolls."

For the past three years, Hamilton has been associated with Jerome H. Cargill, Inc. of New York, one of the country's leading producers of amateur theatrical shows, and has represented the firm in directing benefit revues in 21 states.

Proceeds from this weekend's variety show will be used to further projects of the St. Elizabeth Hospital Auxiliary in conjunction with hospital needs and recommendations of the St. Elizabeth administrators.

The "Folies" guests were introduced Thursday by Ted Eiertman, club vice-president and program chairman. One local businessman commented after the entertainment—"Now that was a most enjoyable experience."

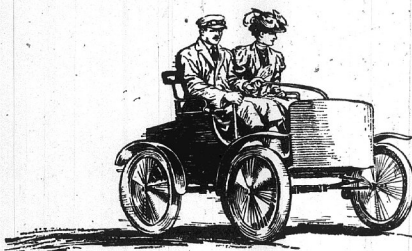

Thirty Optimists attending also pledged a donation of \$10 to the 1970 Tri-Cities United Fund campaign.

John L. "Jerry" McDonald, club president, conducted a short business session, during which plans were made to sponsor a public service program. Details of the special program will be announced later this week, McDonald said.

The Little Beavers patrol conducted an opening flag ceremony as the girls repeated the pledge of allegiance and promise and sang a patriotic song. A get-acquainted hour was held with the new co-leaders and a new member, Sherrie Carney.

A troop birthday party was held and the table was adorned with a silver star holding year pins. The scouts formed a circle around the birthday centerpiece, cupcakes with individual candles, and made wishes for the troop as they blew out

the candles and sang "Happy Birthday."

Mrs. Watkins thanked Mrs. Eva Arbagast and Mrs. Anita Moody for their participation in the afternoon's festivities and for assistance throughout the year. The scouts made plans for a masquerade Halloween party next week.

Refreshments were served to those named and Kathy Adams, Laura Arbagast, Pam Allen, Cheryl Brinkley, Sherree Buckingham, Sharon Crucial, Karen Crowell, Becky Denny, Alta Ellis, Terri Hutchinson, Vicki Moody, Kathy Ruffell, Jana Russell, Pat Smith, Vickie Thompson, Rebecca Waltemate, Gail Watkins, Candice Werth and guests, Mrs. Carol Brinkley and Mrs. Marilyn Holt.

Illinois Constitution Outlines Fundamental Rights of Citizens

(Part of a Press-Record series on the Illinois Constitution, subject of a convention which will begin Dec. 8.)

The existing (1870) state constitution begins with a preamble and boundary description and then outlines a 20-point Illinois Bill of Rights:

1. Inherent and inalienable rights—All men are by nature free and independent.
2. Due process—No person shall be deprived of life, liberty or property without due process of law.
3. Religious freedom—Free exercise and enjoyment of religious profession and worship, without discrimination, shall forever be guaranteed. Does not dispense with oaths or affirmations; does not excuse licentiousness or practices inconsistent with the peace or safety of the state. No preference to be given to any denomination or mode of worship.
4. Speech freedom—Freely speak, write and publish on all subjects. In libel trials, the truth—when published with good motives and justifiable ends—is a sufficient defense.
5. Jury trial—Right of trial by jury, but the jury may be less than 12 in civil cases before justices of the peace.
6. Searches and seizures—People secure in their persons, houses, papers and effects against unreasonable searches and seizures. Warrants issued without probable cause, supported by affidavit, particularly describing the place to be searched and the persons or things to be seized.
7. Bail and habeas corpus—All are bailable by sufficient sureties, except for capital offenses where proof is evident or presumption great. Privilege of the habeas corpus not suspended except when public safety requires in case of rebellion or invasion.
8. Indictment—No person held for a criminal offense, unless on indictment of a grand jury, except in cases in which the punishment is by fine or imprisonment for not more than one year, or in cases arising in the Army and Navy or the militia, when in actual service in time of war or public danger.
9. Rights after indictment—Right to appear and defend in person and by counsel. Right to meet witnesses face to face, and to compel attendance of witnesses.

Need a Charge? 20,000 Say They Do

(American Chemical Society)

Going to the hospital to get your batteries charged may not be so unusual as you think. "Chemical and Engineering News."

About 20,000 Americans are now equipped with portable, rechargeable batteries. They are powered by heart-beat regulating devices, and they would be very glad to have their batteries recharged instead of having to undergo surgery to have them replaced.

The rechargeable batteries will soon be available if all goes well at General Electric, where they were developed. But other alternatives are possible.

Nuclear power, which started out big some years ago in the form of power plants and submarines, has been getting smaller ever since.

An apple-sized nuclear power source has been placed inside a four-year-old foxhound named Brundish under the care of Dr. Sidney Levinsky of the National Heart Institute.

The plutonium-powered heart pacemaker has undergone extensive testing by the Atomic Energy Commission and is expected to provide enough continuous energy to keep a canine heart pumping away for ten more years.

"If the pacemaker performs up to expectations, tests with dogs, human trials may occur within the next three years," says Dr. Levinsky.

Another idea for generating reliable, trouble-free heart power has come from the Yale University Medical School and from a division of United Aircraft Corp.

Both are working on a radio-frequency pacemaker, one of which is implanted near the patient's heart. It is powered by radio waves sent through the skin and chest wall by a transmitter worn outside the body.

"Far more desirable than an external energy control unit would be a completely implantable, long-lived source free from external encumbrances," says the magazine. Perhaps the most intriguing approach to this idea is an implantable bioelectric fuel cell.

"Ideally, the fuel for such a cell would be some natural blood-borne substance such as glucose and oxygen. Glucose would be used through a series of reactions expedited by enzymes or catalysts, thus creating a flow of electricity to drive the artificial heart or assist device."

"The bioelectric fuel cell idea is readily adaptable to use in pacemakers. But the cells need many years of research before nuclear energy is the most likely candidate to replace the conventional batteries of today's pacemakers."

Peace Advocates Had Chance to Be Heard; Future Work Disruptions Not Justified

We did not support the October "moratorium" but we do not question the motives or patriotism of most of those who participated.

The desire for world peace is natural and proper, and the generally lawful dramatization of this hope served to give further evidence of the public frustration stemming from a war that seems interminable, a war that continues to take the lives of many young Americans and many Vietnamese of all ages.

What is potentially disturbing is the talk of observing similar stoppages of work and study on an escalating basis, two days in November, three days in December, four days in January, continuing until the war ends. Two valid objections come to mind immediately:

1. Taxpayers and other employers deserve a day's work for a day's pay from every member of their staffs, and students need every bit of education they can get in this age of technology and computerization.
2. Work stoppages, whether called moratoriums or general strikes, are a classic Communist tactic in seeking the overthrow of a nation. If an orderly way of life can be disrupted, with confidence in government and law enforcement undermined, and production of goods and provision of public services disrupted at will by those fomenting dissent, the stage is set for open, violent rebellion.

Demonstrators are quick to point out that the U. S. Constitution assures "the right of the people peaceably to assemble," as well as freedom of speech and the right to petition the government for redress of grievances. They fail to add that such assembly could take place in leisure time rather than the time an individual has pledged to his work.

The same Constitution says, "Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort."

We do not believe that activities on Oct. 15 constituted treason, but they may have given an aura of respectability and a false sense of justification for actions which, if over-elaborated in the future, could be clearly treasonous, harmful to the cause of liberty and destructive to the perpetuation of mankind's most shining example of democracy, America.

United Fund Equal to the Sum of Its Parts; Success of Campaign Depends on Each of Us

United Fund progress reports do not always show whether the drive will reach its goal, since various divisions carry out their solicitation at differing rates. Not all campaign workers have completed their tasks this month but it is evident how much has been raised for operation of the 19 member agencies during 1959.

What is certain is that the UF chain is only as strong as its links. Success or failure will be

87% of City Developed But Many Large, Ideal Plant Sites Are Nearby

(Granite City Long-Range Plan)

In relation to their importance to the local economy, commercial uses occupy a small amount of the developed land in Granite City.

As expected, a large concentration of commercial activity is found in the Central Business District (CBD).

An equally large concentration of newly developed commercial facilities is found along Namekook village in the bluestone village. Namekook Village Shopping Center, N. 23rd and N. 24th streets, is beginning to develop along Madison Avenue, East 25th street, N. 23rd and N. 24th streets, and N. 25th street.

The remaining commercial activity—predominantly within the city area—is limited due to the lack of adjacent vacant land.

Granite City Steel Co. recently expanded into marginal residential land due to the lack of adjacent vacant land.

The Tri-City Regional Port District presently holds options on several prime industrial sites to the west and north of the city, so there is adequate amount of land available for future industrial expansion outside the city.

If Granite City desires vacant land for industrial expansion, it must annex it. However, any future expansion of industry must be preceded by the extension of utilities and construction of adequate roads. Granite City has approximately 20% of its total developed land devoted to street and alley rights-of-way.

Most of the streets have 50-foot and 60-foot rights-of-way.

The Granite City street pattern is basically a grid pattern, with deviations in the newer subdivisions east of Namekook village.

determined by how each resident, employee, business and organization responds.

Now is the time for everyone who spends all or part of his or her day in the Quad-City area to make sure his pledge of contribution is on its way to the United Fund office, 2021 Edison Avenue, 877-6780.

Programs and services essential to all of us depend on the annual drive—or whether each one of us gives enough so that all 19 agencies can operate during the coming year.

As the motto on President Truman's desk used to say: "The buck stops here." It's up to us, each of us.

Senate Candidacy by Young But Veteran Party Workhorse May Be More Than a Trial Balloon

Both in Illinois and the nation, State Treasurer Adlai Stevenson III is far better known than Alan Dixon, State Senate minority whip. But we suspect that increasing discussion of Dixon as the Democrat to oppose Republican U. S. Senator Ralph T. Smith next year is more than just a trial balloon.

Dixon has been somewhat of a "Paul Simon," but with a significant difference. The parallel is that both Dixon and the present lieutenant governor entered the state legislature at a young age, both are still barely past the age of 40, both have been energetic in carrying out their duties, and both have records of public service unblemished by challenges of their personal integrity.

Where their careers have contrasted is that the St. Clair county legislator has worked within party ranks, in almost total harmony with such leaders as the mayors of Chicago and East St. Louis. Simon has taken a much more independent approach, at one point incurring censure of his being reserved for downstate. And he is somewhat unpopular within professional political circles here and elsewhere, a handicap which Dixon does not have.

It could be quite a horse race in the March primary election. Alan Dixon, a 23-year-old "child prodigy" when first elected to the Illinois House in 1950, may be ready and able to seek higher responsibilities.

Growth of Hospital Reflects Its Solid Confidence in the Future of This Area

As the St. Elizabeth Hospital cornerstone ceremony points to mind, the growth of the local hospital has been a reflection of the years since the first hospital facilities on 21st street were established.

It is becoming one of the largest and most attractive edifices in this region and the wing which is under construction will enable it to continue to offer the latest available lifesaving equipment and health care services.

Residents of the Quad-Cities and surrounding area have a real asset, and a convenient location which literally can make the difference between life and death in instances of severe injury or illness.

Economic and employment vicissitudes are such that a community's confidence can be shaken—confidence in whether it can continue to attract adequate job and tax bases and provide sufficient services to old and new neighborhoods.

Through all the ups and downs encountered by the Quad-Cities, St. Elizabeth Hospital has remained steadfast, fulfilling its important role year in and year out and not only voicing but translating into action its confidence in what this community and the hospital can and will become.

BOARD NOT 'YES MEN': REPRESENTS THE PUBLIC

To the Editor:

In answer to the former Namekook township official's Forum letter Oct. 9 concerning the Press-Record's editorial and the present town board, he stated that at the board needs help in paying off an election promise.

We agree. They promised "truth and action." And they find the truth, they are meeting a lot of opposition in giving us "truth and action."

It seems that Mr. Polley thinks that when any of the board members question Supervisor Briggs on such things as prices on anything, b.i.s., bills or lost office equipment, they are "harassing" him.

When the bill in question was brought before the new township board in May, they voted to delay payment of this bill until they could check prices and get an explanation of why from the township clerk.

The bill was discussed at several meetings. Even when the board decided to return the chemical, on the advice of legal counsel, why didn't Mr. Briggs tell them that the former town board had already approved this bill and that the new board had no choice but to pay it?

It was said in the letter that the new town board has not learned what "position they play in township government." They were elected to represent the facts concerning our township and to inform the taxpayers. If this is not the position in township government, then we pray they never find it out.

FOOD FOR ATHLETES

Is your boy in an athletic posture? If so, it would be a good idea to know that a lot of food faddism gains circulation in athletic circles. Some coaches know nutrition. Many don't.

As a result, special restrictions, or special food products, especially on game day, may be recommended to your boy. In my opinion, advice to athletes to take their oxygen, or vitamins, or honey with their meals, or special medication is a lot of nonsense.

Regular team diets are a football player, for example, to not eat his regular breakfast on Saturday. If he has the same time interval between breakfast, lunch and dinner, he has been observed during the week between breakfast, lunch, and 4 o'clock practice.

What coaches are usually after when they suggest a different routine is to make game day special, psychologically. They use every means they can to get the team "up" for competition.

Well, there are plenty of means for influencing a boy's frame of mind and stimulating motivation without messing around with your son's basic body metabolism. In fact, a regular team diet with special practices that are otherwise sound can, in fact, serve to make the game.

The Year 1969

Herewith are the lists of real estate and personal property assessments as made by the township assessor of Granite City, Madison County, Illinois, and returned to the Mayor, County Treasurer and Supervisor of Assessments.

The assessed values shown are subject to revision by the Board of Review and to equalization by the State Department of Revenue. Under provisions of Section 146 of the Illinois Revenue Act of 1939 as Amended in 1945, the Department of Revenue is required to determine the percentage relationship within each county of assessed value to full cash value.

The Department of Revenue is required to raise or lower the assessed value of any real estate so that all such property will be assessed at its full cash value. These equalized values will become the base for tax extensions for 1969 taxes payable in 1970 and indicate the full cash value of the properties assessed, based on the assessed value as made by the local assessing officials.

This publication, which is made in accordance with Section 384 of the Illinois Revenue Act of 1939 as amended, serves as a public notice to the taxpayers of the County of Madison, Illinois, to examine the assessed values for their property by the township assessors of the aforesaid township.

Taxpayers who consider their property incorrectly assessed may appear before the board of review and file a complaint in writing on or before ten (10) days after publication date or within such time as otherwise provided by Section 389 of the Revenue Act.

Bulk of Madison Fire Safety Code Needs are Met

About \$50,000 worth of work on Madison school buildings remains to bring them in compliance with the state fire safety code, the board of education was informed at a meeting Thursday night.

Virgil Dulgeroff, school architect, said the amount should be sufficient and that, financially, the district "is over the hump" in meeting state requirements.

Raymond Dragich, superintendent of schools, said the work could be done next summer and perhaps the following summer if an extension of time is granted.

Dulgeroff said Louis Baer grade school meets all of the standards, while Dunbar grade school is nearly complete, with a stairway to be enclosed.

Installation of "smoke screen" doors at the high school will cost about \$4000, without the cost of labor.

Eliminate Stage
The stage at the junior high school is to be eliminated and the area will be lowered to the level of the adjacent gym floor. The space will be used for cafeteria facilities.

Other work required includes installation of smoke screens to protect stairways, dropped ceilings, new lighting and spotter fire escape.

Dragich reported that the schools came through fire alarm drills "with flying colors" during Fire Prevention Week, the only exception being failure of a couple of alarms to sound at the high school. They have been adjusted.

He also reported on National School Lunch Week, observed last week, at which the same menu was featured at all of the schools in the country on one of the days.

Halloween Parties
The board approved plans for Halloween parties to be held Oct. 31 at all the elementary schools.

Chester McManaway, board president, and Harold T. Fisk were named delegate and alternate, respectively, to the annual meeting of the Illinois Association of School Boards Nov. 22-24 in Chicago.

It was announced that the semi-annual conference of the southwestern division of the IASB will be held at 8 p.m. Oct. 30 at Granite City high school. School secretaries were authorized to attend the fall conference of the Illinois Association of Educational Secretaries Oct. 24-25 at Joliet.

The school treasurer's report showed Oct. 1 cash balances of \$496,663 in the education fund, including investments of \$280,000; \$85,200 in the building fund, with \$55,000 invested; and \$141,568 in the bonds and interest fund, with \$141,000 invested, for a total of \$723,432, including investments of \$476,000.

September salaries included \$128,303 from the education fund, \$4221 from the lunch fund and \$596 from the building fund, and September bills included \$141,112 from the education fund, \$2900 from the building fund and \$7651 from the lunch fund.

Public Hearing Thursday on Urban Part of Constitution

Citizens with ideas on what the next Illinois Constitution should provide regarding urban government will have an opportunity to present their views between 9 a.m. and 4 p.m. Thursday at SIU-SW.

The public hearing will be conducted in the St. Clair Room of the University Center at SIU-SW by the Regional Advisory Committee to the Illinois Commission on Urban Area Government.

The Madison-Sf. Clair counties advisory committee, appointed by Governor Richard B. Ogilvie, is headed by Edward G. Maag, East St. Louis attorney. Its members include William F. Winter, Press-Record associate editor.

Regional committees in various sections of the state will advise the Commission on Urban Government regarding proposed wording of the new constitution and, later, on legislation to be considered by the Illinois General Assembly in its session opening in January 1971.

Constitutional approaches affecting urban area government are to be recommended by the state commission to Gov. Ogilvie and to the constitutional convention, which will convene Dec. 8.

Oral, Written Comments
Individuals and organizations represented at the public hearing Thursday will be given an opportunity to present oral remarks but must present written statements outlining their views.

Specific people and groups known to have opinions on the constitution are being advised directly of the hearings, and others also can attend and participate.

Both Madison and St. Clair counties will be included in this week's hearing, but all presentations regarding the state constitution are to deal with urban government, since the commission has no jurisdiction on other subjects.

Legion Auxiliary Gives Flag to CAP Squadron

The Granite City Civil Air Patrol Squadron will carry a new U. S. Flag on Tuesday, Nov. 11, when the local group participates in the Veteran's Day parade at Fairmont City.

Squadron members were presented the flag by the American Legion Auxiliary, Tri-City Unit 113, in ceremonies Thursday-evening at the Granite City civil defense center, 1411 Nineteenth street, headquarters for the local CAP unit squadron.

Making the presentation were Mrs. George (Lumeta) Durbin, a representative of the auxiliary's Past President's Parley, and Mrs. Stanley (Doris) Edwards, president of the Tri-City Unit 113.

Accepting the new banner were 1st Lt. Robert O. Ebrecht, USAF — CAP squadron leader of the Granite City unit and Capt. Sgt. Steven R. Ebrecht, who serves as the local CAP's operations officer.

Mrs. Edwards addressed the crowd, telling the group, "The American Legion Auxiliary members are very proud of you for wanting to fly the colors of your country." She noted that 1969 is the 50th anniversary of the founding of the Legion auxiliary.

The unit president remarked the organization's half-century birthday goal — "to color our community red, white and blue. To prove to all that we love, honor and respect America and the principles for which she stands. Perhaps we are protesting for America against the present."

She said the auxiliary will donate flags to similar groups upon request. Those interested
